Knowledge: Agile Methodology, Cloud Computing

Foreign Languages: Chinese (Mandarin), Spanish

COURSE HIGHLIGHTS

Computer Programming II

System and Software Tools

Programming Languages

The Hardware/Software Interface

Foundations of Computing I

Software Design and Implementation

Foundations of Computing II

Calculus with Analytic Geometry III

Data Structures and Parallelism

Matrix Algebra with Applications

PROJECTS

Chess Bot

November 2019 - December 2019

CSE 332 – Data Structures and Parallelism

- Created a Chess bot that competed against other chess bots
- Written in Java using IntelliJ IDEA and Git
- Used Alpha-Beta and Minimax algorithms to compute the best move
- Utilized Fork-Join Framework to implement parallelism and improve performance

WORK EXPERIENCES

Barnes and Noble College

July 2019 - August 2019

Athletic Venue Associate - Husky Team Store University of Washington

- Helped start up the Husky Team Online Store
- Provided customer service by greeting, answering questions, and assisting with the purchase
- Shelved, arranged, cleaned, and organized products
- Processed online orders and transactions
- Managed Inventory

Summer Hummer Camp Counselor

2013 – 2016

Westwood Baptist Church

- Led arts, crafts, sports, games, and hobby workshops for 5-10-year-old kids
- Ensured campers were dropped off and picked up safely
- Communicated with parents and supervisors
